DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-16 and 29-32, drawn to an apparatus for duplex printing.

Group II, claims 17-21, drawn to a sheet transport system.

Group III, claims 22-28, drawn to an apparatus for transmitting vacuum.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Invention Group I is drawn to an apparatus for duplex printing where the special technical feature resides in the ability of the printer to turn a sheet over by gripping the sheet simultaneously along both the leading and trailing edges of the sheet. Invention Group II is drawn to a sheet transport system where the special technical feature resides in the structural makeup of the perfecter, namely first and second brackets being independently rotatable about the same axis and a plurality of suction cups mounted on each of the brackets. Invention Group III is drawn to an apparatus for transmitting

vacuum where the special technical feature resides in the bearings and seals which allow vacuum to be transmitted to a rotating shaft.

2. A telephone call was made to Paul Fenster on 8/29/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin D. Williams whose telephone number is (703) 305-3036. The examiner can normally be reached on Monday - Friday, 8:30am - 6:00pm.
